**Clarification on Pre-Bid Queries for the Work “Supply and Installation of Fully Automatic Truck Mounted Fog Cannon at Manoharpur Coal Mines, Sundargarh, Odisha”**

Ref: NIT No- OCPL/SER-134/2022, dtd.08-04-2022

Sl No	Queries Raised	OCPL Response
01	As per the specification under clause 2 of CAB Chassis the total weight carrying capacity of the chassis mentioned is 16 MT and the Water Tank considered 12000 liters is mismatching and ideally it should be 8000 liters to keep parity with the chassis load carrying capacity.	The water tank shall be of minimum capacity of 8000 Liter.
02	Point No 8 under High Pressure Pump and discharge of water is mentioned as 450-1500 M3 / hour which involves a huge pump unsuitable for the System as a whole and may be considered as 450-1500 LPM / hr.	The pump shall be of minimum capacity of 450-1500 LPM / hr.
